

POWER RAIZOR Mk2

TCPWRV2BU

- Multi-angle cutting unit.
- Use with the Raizer MkII rail cutter.
- This device is not compatible with original Raizer rail.
- Cuts 90° and 45° angles.
- Plunge cut adjusts the cut depth to perform square and rectangular holes.
- Available in version of grinder with M14 metric arbor and version of 5/8" - 11 imperial arbor.
- Can be used dry or wet.
- Equipped with connecting part for dust extractor.
- Cutting depth allowed: 20mm (for 90°), 16mm (for 45° angle)
- Only for Raizer Mk2 (TC10RAIZMK2)

ANGLES

Perform 90° straight cuts or 45° angle "miter cut" (the actual angle is 47°)

USE WITH RAIZOR

Only to be used with Raizer Mk2 (TC10RAIZMK2)

CUT

Cutting thickness allows for 20mm at the 90° angle, and 16mm at the 45° angle.
